

# Yarning Cards

For sick ears

When using this resource, you get the chance to yarn about how sick ears and hearing loss affects you and your family.

When you have had a yarn, go back to the "Sick ears" web page and you can learn about sick ears and how to stop kids getting them.

Do your kids kids get  
sick ears sometimes?

what do they do when  
they have sick eats?

How do you think they feel?

How do you feel when  
they have sick ears?

What happens when  
your kids have sick ears?

At home?

In childcare?

Other places?

After you have yarned about these cards and looked at the website, you could then:

- Write down what you want to tell people about what you have learned.
- If you are training early childhood workers you could get people to do a collaborative painting or drawing that shows what has been learned.
